PERSONAL STATEMENT

Analytical and solutions focused professional with experience in operational analysis, data interpretation, and performance monitoring within technical environments. Skilled in working with complex datasets, identifying risks, and supporting data driven decision making through structured reporting and problem solving. Experienced in collaborating with stakeholders and multidisciplinary teams to improve operational efficiency and deliver high quality outcomes. Strong attention to detail with a proactive approach to continuous improvement, reporting accuracy, and client support. Passionate about sustainability and supporting energy efficiency initiatives through analytical reasoning and operational improvements.

PROFESSIONAL EXPERIENCE

Senior Casino Dealer(Part Time) – Grosvenor Casino, Southampton, UK

Jan 2025 – Present

- Managed cash desk operations and customer financial transactions within a regulated environment, ensuring accuracy and compliance with operational procedures.
- Maintained transaction records and supported reconciliation activities, contributing to reliable financial handling and reporting processes.
- Delivered high quality customer service while handling sensitive financial interactions in a fast paced operational setting.
- Worked collaboratively with team members to maintain efficient operations and uphold compliance and responsible gaming standards.

Network Engineer – BT Group, Birmingham, UK

Sept 2025 – Dec 2025

- Supported monitoring and analysis of operational infrastructure data across multiple network environments, helping maintain reliable service delivery and operational continuity.
- Assisted engineering teams in troubleshooting network issues and identifying technical risks, contributing to improved operational response and reduced service disruption.
- Maintained accurate technical records and compliance aligned reporting processes within a fast paced operational environment.
- Worked collaboratively with multidisciplinary engineering teams to support infrastructure projects and maintain operational efficiency across secure network systems.
- Supported infrastructure segmentation and monitoring activities aligned with secure operational performance and compliance requirements.

Software Engineer – Renderways Technology Pvt Ltd, India

May 2023 – Jan 2025

- Led consolidation of multiple legacy website platforms into a unified cloud based environment, reducing maintenance overhead by 35% and improving operational efficiency across client services.
- Built and maintained responsive platform features that improved page performance scores by 25% and enhanced overall user experience.
- Improved deployment reliability and system continuity by supporting cloud based monitoring and automated CI/CD workflows, contributing to 99.9% uptime across hosted platforms.
- Collaborated with cross functional teams to deliver scalable client solutions, reducing delivery timelines by 20% through improved workflow coordination and technical implementation.
- Contributed to testing, troubleshooting, and optimisation activities that reduced production defects by 30% and improved service reliability.
- Produced structured technical documentation and reporting to support monitoring, deployment activities, and operational consistency across projects.

Front-End & E-Learning Developer – MF Media Pvt Ltd, India

June 2022 - Apr 2023

- Developed responsive applications and frontend features that improved usability and supported consistent user experience across devices and browsers.
- Assisted with testing, debugging, and workflow improvements, contributing to smoother project delivery and improved application reliability.
- Worked collaboratively with project teams to deliver client focused solutions aligned with operational timelines and business requirements.
- Supported continuous improvement initiatives through proactive problem solving and structured development practices.

TECHNICAL SKILLS

Programming Languages: Python, C, C++, SQL, Bash, Java, PowerShell, HTML, CSS, JavaScript, Node.js, Vue.js

Analytical & Reporting: Data Analysis & Interpretation, Reporting & Documentation, Performance Monitoring, Dashboard Monitoring, MS Excel, Power BI, Power Query, Stakeholder Communication

Software Development: OOP, Agile, Git, System Design, Visual Studio Code

Data Structures & Algorithms: Problem-solving, complexity analysis, optimization

Distributed Systems & Databases: Docker, MySQL, Cloud Security, Splunk

Cybersecurity Tools: Nmap, Burp Suite, Metasploit, Nessus, Wireshark

Platforms: Linux (Ubuntu, Kali), Windows, Google Cloud Platform, AWS(S3, Lambda), CI/CD Pipelines

Security & Compliance: OWASP Top 10, ISO 27001, NIST, Secure Coding

EDUCATION

University of Southampton | Southampton, UK | Sept 2023 - Sept 2024

Master of Science in Cyber Security

Graduated with Distinction

- Aced Modules: Cryptography, Digital Forensics, Incident Response, Network and Web Security, Malware and Penetration testing, Software Project Management.

Saveetha Engineering College | Chennai, India | Aug 2019 - Apr 2023

Bachelor of Engineering in Computer Science

Graduated with Distinction

- Aced Modules: Operating Systems, Machine Learning, Computer Networks, Python Programming, Cryptography, Software Engineering, Database Management System.

ACADEMIC PROJECTS

Comparative Analysis of Steganography Techniques in Real and AI-Generated Images: Embedding Efficacy and Detection Resistance

Image recognition-based attendance system with spoof detection using python

Surveillance of species at risk by unarmed aerial vehicles using python

E-Forms Service- Generating secure electronic forms with validation and digital signature integration using XAMPP

CERTIFICATIONS

(2025)CompTIA Security+ | CompTIA

(2025)Google Cyber Security Professional | Google

(2025)Junior Penetration tester | eJPT | INE

(2024)Microsoft Azure Fundamentals | Microsoft

(2024)Mastercard - Cybersecurity Job Simulation | Forage

(2022)Full Stack Development Bootcamp | ZTM | Udemy

(2021)Agile Training Module | IBM

ACHIEVEMENTS

(2024 – Present)Hack The Box- Successfully captured 30+ flags on Hack The Box, showcasing penetration testing expertise.

(2024)University of Southampton MSc Cyber Security Ambassador.

(2023)CodeChef College Chapter- Increased CodeChef College Chapter engagement by 30%, promoting cybersecurity awareness through workshops.

(2022)Google Cloud Program - Reached Google Cloud Ultimate Milestone, mastering key cloud security concepts.
